Next, the hearing will evaluate how China is pursuing new materials, components, and technologies to address longstanding obstacles in domains such as space, aviation, and undersea warfare, as well as to gain supremacy in new domains such as artificial intelligence. Finally, the hearing will provide a forward-looking assessment of how Congress, the Administration, and U.S. allies and partners could improve export controls and investment screening to control technology flows to China for use in advanced weapons.

The hearing will be co-chaired by Chairman Carolyn Bartholomew and Vice Chairman Alex Wong. Any interested party may file a written statement by April 13, 2023 by transmitting to the contact above.
